LETRINA S.A.

INDEPENDENT INSPECTORS CERTIFICATION BODY

ISO 27001:2013

Information Security Management System

Information Security as a top priority

ISO 27001 is a standard that ensures the selection of adequate and balanced information security controls and is therefore highly recommended for any organization where information protection is a critical requirement. The standard is designed to help organizations manage their security processes in line with international practices while optimizing their costs. ISO 27001 can be applied to all organizations - regardless of their size, type or field of activity

The certification and annual audit of such a system is provided with reliability and quality by LETRINA SA.
